Bulk Agro Commodity Trading & Processing

57+

Years of experience

5

Locations across Maharashtra & Karnataka

550

Tons processed per day

1.5L+

Farmers connected via e-Choupal

SINCE 1969

Since 1969, Hude Group has been serving the nation with the finest Sortex-quality agro commodities, along with premium finished products and related services such as transportation, warehousing, and cold storage. Backed by decades of trust and continuous investment in modern technology, we ensure that every grain reaches our customers with purity, nutrition, and natural goodness. We are proudly present across Maharashtra and Karnataka, in regions including Udgir, Latur, Solapur, Bhalki and Bidar. Our strong geographical presence allows us to offer high-protein crops of superior quality while being strategically located for easy access and round-the-clock service — and we dispatch to bulk buyers across India from these locations.

FROM FARM GATE TO DELIVERY

01 Sourcing

We buy directly at the farm gate across Maharashtra and Karnataka, working through long-standing relationships with local farming communities rather than through layers of middlemen.

02 Processing

Pulses are cleaned and milled on Buhler machinery at 550 tonnes a day, kept unpolished and additive-free.

03 Oil Seed Extraction

Soya is processed through solvent extraction and refining into crude and refined oil, de-oiled cake and derivatives, from lecithin to acid oil.

04 Storage

Dry warehousing and cold storage run side by side, with pest management and humidity control in place to protect quality between processing and dispatch.

05 Logistics

A company-owned fleet carries finished goods out to over 1,000 retail stores and enterprise clients across the region.

WHAT WE DO

Agro Commodity Trading

Sourced at the farm gate across Maharashtra & Karnataka.

- Direct farm-to-business sourcing network
- Uncompromising multi-tier quality checks
- Scalable volume handling for enterprise clients

Pulses & Gram Flour Unit

550 tonnes/day on Buhler machinery — unpolished, additive-free.

- 550 tonnes/day — high-capacity production ensuring uninterrupted supply
- Buhler technology — world-class automated machinery for maximum hygiene
- Unpolished pulses — 100% natural processing, free from artificial colors

Oil Seed Extraction & Bulk Soya DOC

Solvent extraction & refining — Soya DOC through lecithin.

- Soya DOC (Normal & High Pro) — high-protein, balanced de-oiled cake for animal and poultry feed
- Soya Refined Oil — ultra-pure, neutral-tasting oil for high-smoke-point cooking
- Soya Acid Oil — industrial byproduct suited to soap manufacturing and chemicals

Cold Storage & Warehousing

Dry + chilled capacity — engineered to cut post-harvest losses.

- Dry warehousing — high-volume, moisture-controlled environments for bulk grains and pulses
- Cold storage units — precision temperature and humidity management for perishables
- Scientific pest management — strict hygiene, ventilation and fumigation protocols

Logistics & Transportation

Company-owned fleet serving 1,000+ retail stores.

- Dedicated fleet — company-owned vehicles ensuring priority dispatch and handling
- Safe handling — specialized transport for sensitive commodities like edible oils and raw grains
- Efficient routing — optimized networks to minimize transit times and maintain freshness

OUR CUSTOMERS

ITC · Adani Wilmar · ADM · Sresta · Sneha Group · Suguna Foods · DMart · CP Foods · SKM Purna Foods · SRS Quails
